

# FACILITIES

Lane Stadium — long regarded as one of the toughest places in the country to play — is getting even better. The south end zone expansion completed this summer (at top, above) added nearly 12,000 seats, luxury suites and club areas. A west side expansion (as seen in this artist's rendering at left) planned for the near future will add more seating and suites and an enlarged press box.

# Building Boom!

When it comes to athletic facilities, Virginia Tech's Director of Athletics, Jim Weaver has a simple philosophy — "as soon as you sit still in terms of facilities, you have taken a step backward."

It has become clear that Virginia Tech has no intention of sitting still on the facilities front. There is a continuous stream of improvements underway or in the planning process in the athletics complex. A number of projects have recently concluded while several larger endeavors loom on the horizon.

The Virginia Tech athletics department is living up to Jim Weaver's challenge to constantly enhance its facilities. Here are a few examples:

- The recently completed Eddie Ferrell Memorial Training Room is a 4,300 square-foot facility that gives the athletic trainers a centralized area to provide physical therapy, chiropractic care and massage therapy to Tech student-athletes.

- The Lane Stadium south end zone expansion consists of 11,100 new seats, 15 luxury suites, two club areas, four television camera stations, a new visitors' locker room that can be split in half and used for the spring sports, new storage rooms and new media interview rooms.

- McComas Field, an existing university field which has lights, was made regulation size and became the new game field for the men's and women's varsity soccer teams as well as women's lacrosse. The surrounding land has been converted into two full-size practice fields. A second phase, the installation of 2,000-3,000 permanent seats, is in the works for the near future.

- Cassell Coliseum's walkway and concession areas' will be getting a facelift prior to the 2002-2003 basketball season. Plans consist of raising ceilings and adding wood panels and Hokie Stone in some areas, as well as new lighting and new floor coverings.

- The remodelling of Lane Stadium's west side will involve the removal of the fencing that surrounds the stadium and replacing it with an actual entrance, the construction of additional new luxury suites, a new President's area, two private club seating areas, an expanded press box, additional seating, new concession stands, a new ticket office, new athletic fund offices, an Athletics Hall of Fame and a new student academic services area.

- Tech has plans for a new field house that will be wider and longer than Rector Field House and would be used for football, soccer and lacrosse. Underneath the new field house there will be batting cages for softball and baseball as well as additional storage areas.

- With a new field house in place, Rector Field House would become a permanent indoor facility for the track & field team.

**The Lane Stadium south end zone expansion project is the most visible construction project being undertaken on the campus this year. By mid-June, most of the exterior work was being completed, and work on the interior suites and club areas (pictured in artists' renderings below) was to be completed just prior to the Hokies' opener with Arkansas State.**

# Lane Stadium/ Worsham Field

## ONE OF THE NATION'S BEST STADIUMS KEEPS GETTING BETTER!

Lane Stadium/Worsham Field has seen its fair share of great players and great games over the years. There was Frank Loria and Tom Beasley. There was also Don Strock and Bruce Smith. And more recently, there's been Michael Vick, Corey Moore and others.

This year's team will be playing on not only one of the best playing surfaces in the nation, but with the new south end zone addition, the Hokies will be playing in one of the best stadiums in the nation.

Now entering its 38th season as an arena of collegiate football competition, Lane Stadium/Worsham Field has gone through numerous changes, renovations and additions. But through it all, it has always been regarded as one of the finest places to watch — and toughest places for opponents to play — a college football game.

### **A New Look**

This season will be one marked by tough competition

and record-setting crowds as the capacity has risen to 65,115. Lane Stadium/Worsham Field has just completed the second stage of what Virginia Tech hopes to be a three-phase expansion project.

Prior to this season, Tech added 11,120 seats in the south end zone to enclose that end of the stadium. The double-deck structure is similar to the Cleveland Browns' "Dawg Pound" section and has

bleacher, bench-back and club seats. The structure is enclosed, but has gaps between the existing structure and the new one, due to new building codes and a desire to get fans closer to the field.

Below the south end zone stands are several new features. There is a football visitor's locker room which can be divided and used for other sports' visiting teams in the winter and spring.

*Continued ...*

There is also the June Oblinger Shott Media Center, which houses a new press room, a press conference area, two radio rooms, a dark room and several storage rooms.

The outside of the facility also has a new look, making the entrance more inviting. Walkways and landscaping give the south and west sides a more appealing entrance for fans and teams.

Last season, the south end zone construction project eliminated the old wooden bleachers in that area. But the north end zone bleachers were expanded down to the field, adding close to 600 new, permanent seats to make the north end zone look similar to the new south end zone. This is where Tech's two marching bands sit. These moves cut the capacity to 53,662.

Prior to the 2000 season, approximately 3,000 permanent bleacher seats were added in the north end zone and prior to the 1999 season, 2,100 permanent seats were added in the same end zone.

Given the process of capital funding approval, the athletics department has set forth a tentative schedule for stage three of the project.

Following the south end zone expansion project, there are several options being considered for the west side.

## A Work In Progress

Since construction on Lane Stadium began in 1964 (right), there have been near-constant changes. The east side consisted of wooden bleachers (below) while the west side was completed all the way up to the press box in the late 60s.

This aerial view (above) shows Lane Stadium as it looked in the early 1970s.

One plan calls for the press box to be fully renovated, adding luxury boxes and a president's suite. The new press area would include four new elevators and a dining area with televisions and ample eating space.

Another recent addition to the facility is the turf and drainage system that was replaced in the summer of 2001. This innovative system is in place in just a handful of other stadiums in the world and

makes Worsham Field one of the finest playing fields around.

## A Winning Tradition

On Sept. 22, 1994, Tech won its 100th game in Lane Stadium in memorable fashion before a national television audience on ESPN with a 34-6 win over BIG EAST rival West Virginia.

Tech's overall record at Lane Stadium is 138 wins, 59 losses and six ties in 37 years of play. The Hokies are 64-22-1

at home during Coach Frank Beamer's tenure at Virginia Tech and more impressively, are 46-8 in Blacksburg the last nine seasons. Tech has an all-time record of 27-6 in BIG EAST games played at Lane Stadium/Worsham Field and have won 20 of the last 23 conference games at home.

Last season, Tech went 4-2 at Lane Stadium/Worsham Field, on its way to an 8-4 season. It also marked the second straight year that every

## HOKIES' TURF A FIRST FOR A COLLEGE FOOTBALL STADIUM

Virginia Tech's continuing efforts to compete at the highest level produced

another first for the Hokies. Last season, Tech became the first collegiate football

In July of 2001, workers install the playing surface in trays on top of pavement that was laid down in Lane Stadium/Worsham Field.

team to have a new state-of-the-art GreenTech ITM natural grass sports field system. Lane Stadium was just the third playing venue to possess this type of playing surface, joining Millennium Stadium in Cardiff, Wales and Giants Stadium in the Meadowlands.

GreenTech, Inc. of Richmond, Va., began installing the highly-sophisticated system shortly after Tech's 2001 commencement ceremonies. The modular turf system features 4,600 4-by-4 foot trays sodded with a Bermuda grass surface and placed on pedestals two-to-three inches above an asphalt base.

The system also provides excellent drainage. Irrigation lines run through pockets underneath the trays and 22 air vents under the field are connected to a vacuum system which will draw water from the trays onto the asphalt. The water then flows into large drains on either side of Worsham Field. The trays, in combination with the vacuum system, can handle up to 16 inches of rain an hour.

Placing the field on mobile trays gives Tech the ability to move sections of the field. It also gives Tech the possibility of hosting events such as concerts in Lane Stadium without damaging the field.

In 1978, a major expansion was begun (above), adding more than 12,000 seats to the east side. Lights were installed in 1982 allowing the first night game (right).

In 2000, Tech added additional seating in the north end zone (above) and a state-of-the-art HokieVision scoreboard. The south end zone expansion (left) which will open this season, is not the end of the story, as big changes are planned for the west side as well.

home game was sold out before the season began.

This season, Tech hopes to continue its home stadium tradition as it hosts BIG EAST rivals Rutgers, Temple, West Virginia and Pittsburgh along with non-conference foes Arkansas State, Louisiana State, Marshall and Virginia.

### Lane and Worsham

On Sept. 5, 1992, Worsham Field was officially dedicated in honor of Wes and Janet Worsham, longtime Hokie supporters from Kilmarnock, Va. The Worshams pledged \$1 million to the university's Second Century Campaign. The Campaign raised over \$18.6 million, almost \$1.7 million more than the original goal, thanks to the support of people like the Worshams.

The stadium is named for the late Edward H. Lane, a graduate of the university and a former member of the Board of Visitors. Lane headed an educational foundation project which raised more than \$3 million for the original construction. Lane's personal donation was the first received by the fund.

The original cost was \$3.5 million, compared with \$3.2 million spent for the addition on top of the east stands. The stadium's original capacity was 40,000, but the east side

addition, completed in 1980, raised that number to 52,500. The relocation of bleacher seats dropped the total capacity to under 50,000.

Lane Stadium, featuring a modern lighting system and a

seating capacity of 65,115, ranks as one of the nation's finest collegiate football facilities.

Before moving to Lane Stadium, Tech played its home games in Miles Stadium, which

had a seating capacity of 17,000. The late Stuart K. Cassell proposed the new stadium as a part of a general plan for a number of new facilities for the university.

The Hokies have sold out 19 straight games at Lane Stadium/Worsham Field and averaged 56,272 per contest for the 2000 season. This fall, seating for 65,115 fans will bring the stadium to life for eight home games.

### Through the Years

Original construction of Lane Stadium began in April, 1964, and was completed four years later. The Hokies did not wait for completion, playing their first game in the stadium on Oct. 2, 1965. Tech defeated William & Mary, 9-7, that day with only the west stands and the center section of the east bleachers completed. Official dedication ceremonies took place Oct. 23 before a 22-14 win over Virginia.

Through the years, the stadium has seen several changes and renovations. In 1982, the lighting system was added to the facility. The system was first used in Tech's nationally-televised 21-14 Thanksgiving Day victory over Virginia that season. The game was broadcast on WTBS and was the first-ever nationally-televised game from Lane Stadium.

Prior to the 1989 season, Lane Stadium underwent further improvements. Tech received a donation of 16 flags with the "VT" logo for the stadium. Lane Stadium also received a new paint job which included the addition of maroon and orange stripes around the inner walls of the facility.

In 1991, a new scoreboard bearing BIG EAST Conference logos replaced the old scoreboard at the south end of

the stadium while a new auxiliary scoreboard was placed at the north end. In the spring of 1994, renovations were completed on seven lower sections of the east stands. Renovations included replacing concrete risers and the addition of wheelchair seating.

Before the 1994 season, plaques bearing retired jerseys of Tech heroes Bruce Smith, Carroll Dale, the late Frank Loria

and Jim Pyne were added to the wall in the north end zone. With the addition of the north end zone seats, the four retired jerseys now fly on flag poles above those stands.

Prior to the 1998 season, the oldest bleachers were replaced with new locust wood and the stands were waterproofed and top coated. On the east side, the roof on the visitors' locker room was replaced along with the

wooden bleachers in the three sections above the dressing room. Also, additional handicapped seating was added.

In addition to the seats in the north end zone constructed before the 1999 season, the interior block walls and concourse tunnels were seal-coated to match the exterior of Cassell Coliseum and the Merryman Center.

Before the 2000 season, a new scoreboard, complete with "HokieVision" was installed behind the north end zone bleachers.

### Record Crowds

BIG EAST Conference affiliation has benefited Hokie football and enthusiastic crowds at Lane Stadium/Worsham Field have helped the Hokies to some big wins during their resurgence under Coach Frank Beamer. Tech set a single-season attendance record in 2000 by averaging 56,272 spectators per contest.

With the new additions and renovations, as well as one of the top teams in the country, hopefully, the 2002 home schedule will be just as successful in drawing record-setting crowds to Lane Stadium/Worsham Field — home of the Hokies.

## Milestone Lane Stadium Games

	Date	Opponent	Result	Score
First Win	Oct. 2, 1965	William & Mary	W	9-7
First Television Game (ABC)	Oct. 29, 1966	Florida State	W	23-21

# Tech's Athletic Complex

## THE MERRYMAN ATHLETIC CENTER IS THE CENTERPIECE OF THE HOKIES' OUTSTANDING SPORTS FACILITIES

The Merryman Center, the centerpiece for Virginia Tech athletics, is a \$10.6 million all-purpose building that ranks as one of the

finest facilities of its kind in college athletics — and it's only getting better.

Located just a good punt from Lane Stadium/Worsham

Field, Merryman opened its doors to athletes in 1997 and was officially dedicated Sept. 26, 1998 in a university ceremony.

The facility is named for the F.W. (Sonny) Merryman family of Rustburg, Va., which presented the university with a major gift, kicking off a fund-raising campaign that saw Tech supporters dig deep into their pockets.

The result is a streamlined 40,000-square-foot facility that includes ...

On the first floor: A spacious sports rehabilitation complex where athletes can go to help them get back on the playing field quicker; a strength and conditioning complex that is magnificent; a speed and agility gym; and a football coaches' locker room.

And on the second floor: A 130-seat auditorium and nine position meeting rooms for use by the football team;

The Merryman Center is one of the most unique buildings on the beautiful Virginia Tech campus.

the new Hall of Legends, which is a showcase of Virginia Tech football; spacious offices for Coach Frank Beamer and his top assistant, John Ballein; the video department, complete with brand new, state-of-the-art equipment; and the women's basketball offices.

The Hall of Legends, the new entranceway to the athletics department, provides visitors with a brilliant display of Hokie football memorabilia.

The area highlights memorabilia from past Virginia Tech football squads with special emphasis on the Outland Trophy, won by Tech's Bruce Smith as the best college football lineman in 1984, as well as the numerous awards won by Corey Moore following the 1999 season.

Other memorabilia highlights are items from Tech's Sugar Bowl football victory over Texas in 1995 — as well as Tech's other bowl appearances — and former Hokies in the NFL.

The area also has a conference room, as well as videos, game balls and other awards handed out.

"The room was designed to provide us with an ideal place for individual meetings with football prospects and their parents," associate athletics director for football operations John Ballein said. "In our opinion, it is quite a showplace for recruiting."

The exterior of the building is streamlined, too, and has a definite Hokie motif. Even the roof, the only maroon one on the Virginia Tech campus,

**The Hall of Legends is an awe-inspiring display of Virginia Tech football memorabilia and a grand entranceway into the Hokies' athletic offices.**

adds a touch of school spirit. The outside walls of the Merryman Center are a combination of Hokie stone and a more simplified white stone that matches that on Cassell Coliseum, the building next door.

"This is a facility that is really special in every way," says Tech A.D. Jim Weaver. "There is no doubt in my mind that the Merryman Center ranks right at the very top among the great buildings in college athletics."

Beamer, too, is ecstatic over the facility. "The building, to me, represents a

commitment on behalf of the university," the coach says. "The construction of Merryman clearly demonstrates the university's determination to maintain a top athletic program year in and year out. All of us connected with football are extremely proud of that."

Another area of interest is Tech's first-rate video area, something Ballein is especially proud of.

"The complex has more coaching stations than any other facility of its kind in college football or in the National Football League," he said.

Beamer's office is special, too. The 22-by-30-foot room is enclosed by

glass on two sides, providing a beautiful view of Lane Stadium/Worsham Field and other parts of the Merryman Center. Beamer also has a great view of the new practice fields installed prior to the 2001 season. The new fields are less than 100 feet from the football locker room.

# Football Team Enjoys Great Facilities

Virginia Tech's excellent football facilities are all conveniently located together for maximum efficiency. Cassell Coliseum (round roof, top) is home to the academic support services offices and computer labs. The Jamerson Center (rectangular, attached to Cassell) contains the football locker room, training room and coaches' offices. The Merryman Center (dark roof, beside Jamerson) is the site of the strength and conditioning facilities, team meeting rooms and medical and physical therapy centers.

Michael Vick Hall, the hallway outside of the football meeting rooms in the Merryman Center, displays Virginia Tech's NFL players, as well as past award winners and murals. The McConnell Auditorium (right) seats more than 100 for meetings and speakers. The Hokies' strength and conditioning facilities (above right) are among the nation's best.

The newly-constructed Eddie Ferrell Memorial Training Room, on the first floor of the Jamerson Center, is a state-of-the-art athletic training facility located just outside the football locker room.

The Hokies' spacious locker room (above) is conveniently located in the middle of all the facilities the team uses.

Rector Field House (above) contains a full-sized indoor football practice facility. New lighted practice fields (right) were built outside the Merryman Center in 2001.

From the Student Athlete Academic Support Services' HEAT Lab (above) to the players' lounge (left) adjacent to the locker room, the Hokies make the most of their outstanding facilities.

# Touring Tech's Venues

A LOOK AT THE HOKIES' OTHER ATHLETIC FACILITIES

Hokie fans heading into Lane Stadium/Worsham Field pass the Merryman Center (right) and Cassell Coliseum, with its distinctive flying buttresses. Cassell Coliseum, (pictured above during a basketball game) is the site of Tech's men's and women's hoops contests as well as wrestling and women's volleyball matches.

One of the great things about Virginia Tech's athletic complex is the proximity of all the venues to each other and the rest of the campus. Not far from the Merryman Center, beautiful English Field (left, and below) is the home of Tech's baseball team, the "Hammerin' Hokies." Also pictured below are Tech's outdoor track and Rector Field House. The Johnson-Miller Outdoor track complex has an eight-lane Mondo track with 10 dash lanes and multiple jumping and throwing areas.

Rector Field House (at right, above) is the site of the Hokies' full-sized indoor practice field, and is also home to one of the nation's finest indoor track facilities (left) in the winter. Plans are being considered for another indoor football practice facility to be located on the other side of Cassell Coliseum and the Merryman Center.

The Virginia Tech men's and women's swimming and diving teams compete at the War Memorial Pool.

The Burrows-Burleson Tennis Center (above and right) boasts six indoor courts as well as six outdoor courts. The facility, which has been honored by the USTA, has been the site of both men's and women's NCAA Tournament matches in recent years.

Tech's relatively-young softball program has only been in existence for six years, but — like many Tech athletic teams — it has already built a reputation for winning. New bleachers and a press box have been added to their facility over the last few years.
